

BECOME **A HAMPSHIRE BUSINESS CLIMATE CHAMPION**

Hampshire Business Climate Champions is funded by SEEDA in partnership with the Environment Centre (tEC), Southampton City Council, Association of Town Centre Management, Business Link, Southampton & Fareham Chamber of Commerce and Industry and Southampton Sustainability Forum

Reducing energy consumption is key to improving our environment as well as cutting costs.

If no action is taken we will start to see changes that will affect our lifestyle, how we go to work and the way we do business.

Start now with a free energy survey

A SEEDA funded initiative in partnership with the Environment Centre (tEC), Southampton City Council, Southampton & Fareham Chamber of Commerce and Industry can help you reduce your energy consumption through a fully funded survey.

What the survey offers you

- A site visit
- A full analysis of your energy use
- A comprehensive written report, identifying energy saving opportunities and payback periods
- Action plan
- Follow-up meeting to discuss report findings

How your business will benefit

- Reduced consumption means reduced energy costs
- Potential saving on equipment life cycle
- Interest-free loans for equipment replacement for instance boilers, lighting
- Tax breaks for investments in technologies that encourage energy efficiency
- Staff motivation and training
- Incorporating an Energy Policy into your business
- Advice and assistance to implement any changes

Take advantage of this **FREE** service.
